

A woman with dark hair and safety glasses is riding a Ryobi 72V zero-turn mower. She is wearing a rust-colored long-sleeved shirt and blue jeans. The mower is black and lime green, with '107CMZTR' and '72V BRUSHLESS' printed on its side. The front of the mower features a headlight and the 'RYOBI 72V BRUSHLESS' logo. The background shows a lush green lawn and tall trees under a clear sky.

RYOBI®

Mow further with the ultimate zero turn, ride on, **72V mower range from RYOBI®**.

Powered by clean energy

Match petrol-like performance and runtime with RYOBI®'s three new zero turn ride-on mowers, available in 76cm, 107cm and 137cm deck size.

72V Zero Turn Ride On Mower V2

The latest ultimate ride on mower range from RYOBI® boasts up-to 16,000 metre squared coverage, which makes maintaining even the largest gardens easy – and all with just one charge. Using intelligent drive system controls all three models steer effortlessly to avoid garden obstacles, plus the 76cm model can easily fit through all standard fence gates.

Along with these new models, RYOBI® has also launched a new 72V lithium-ion battery platform for their Ride on Mowers. Compatible with the 36V Maxpower batteries for added runtime, this 72V battery platform provides the power to match the performance of petrol fuelled mowers. Feel safe in the knowledge you're not sacrificing performance for greener credentials. Replacing the Lead Acid predecessors, the new fast charging Lithium-Ion batteries can be recharged in as little as 2 hours and are easily swapped, reducing downtime, so you can mow further, and for longer.

All three ride on mowers include RYOBI®'s intelligent drive system controls, meaning even first-time riders will find it easy to drive and steer. Move forwards, backwards and spin a full 360 degrees with ease. The inbuilt LCD screen also provides instant feedback on performance and battery-life, while the double crosscut blades deliver superior cut quality and a wide cutting path. Meaning larger areas can be covered effortlessly with speed and ease. Carry out your taxing garden chores in complete comfort on the suspended, padded seat and enjoy the improved power, performance and longer runtime of RYOBI®'s brushless motor.

RYOBI®'s ultimate, ride on mower range is available in three deck sizes; 76cm, 107cm and 137cm models. Each model is configured for maximum performance of its mower size – meaning you can mow further, for longer.

A black and yellow Ryobi 72V Brushless Ride On Mower is shown in a grassy field. The mower has a large black seat with yellow accents, a steering wheel, and a control panel. The front of the mower features a large headlight and the Ryobi logo. The wheels are black with yellow rims. The background is a lush green lawn with trees in the distance.

RYOBI®

Why Ryobi?

The new **72V Ride On Mower range** is powered by the RYOBI 72V Battery Platform. Incorporating the most advanced motor technology, electronics and battery performance, the **72V Battery Platform** is redefining cleaner, powerful performance, giving you a cleaner energy alternative when using your petrol ride-on mower.

The **72V Battery Platform** is the smart choice for greener, cordless gardening. And thanks to its best-in-class technology and innovation, RYOBI® offers an impressive 3-year warranty for their cordless tools.

ABOUT US

RYOBI® power tools are backed by the RYOBI® 3-year warranty.

*Registration required for extension from 2 to 3 years for battery powered and electric tools. Please visit our website www.ryobitools.eu within 30 days of purchase for detailed information about warranty conditions and extension registration. This warranty is valid in the European Community, Switzerland, Iceland, Norway, Liechtenstein, Turkey and Russia. Outside these areas, please contact your authorised RYOBI dealer to determine if another warranty applies. Warranty extension from 2 to 3 years excludes petrol tools. Standard 2-year warranty still applies to all petrol tools.
